

Learner-Centered Leadership Academy

A Year-Long Professional Learning Experience for Leadership Teams

Join other innovative leadership teams in a collaborative learning journey designed to advance learner-centered practices in your context. Through hands-on experiences and expert facilitation, your team will develop practical strategies and actionable plans to implement meaningful change in your educational community. *Outcomes of this Leadership Academy are co-designed to meet your needs, building leadership capacity through structured collaboration and practical application.*

Build Leadership Capacity Through:

- Developing strengths-based profiles
- Identifying problems of practice
- Communities of Practice
- Customized Course Options: Enabling Conditions, Leading Meaningful Change, Foundations of Learner-Centered Learning, and Book Study & Applied Learning

Focus Areas

- Creating enabling conditions for success
- Building effective leadership practices
- Developing sustainable implementation strategies
- Measuring impact and progress

Program Structure

- Four full-day in-person sessions
- Ongoing team collaboration opportunities
- Implementation support between sessions
- Access to comprehensive resources and tools
